DETAILED ACTION

Examiner acknowledges receipt of paper numbers 6 and 7 filed 06/26/01 and 12/06/01 respectively.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art, Raiden et al. (US 5,840,334), discloses a shearform matrix composition and method of making the composition wherein the composition comprises binder (0-10% by weight), salivating agents, diluents/bulking agents (0.5-25% by weight) and active agents. The prior art is silent on the amount of the salivating agent. The invention is directed to a composition and a method of preparing the composition wherein the composition comprises a binder (0.01-70% by weight), salivating agent (0.05-15% by weight), diluent/bulking agent (10-90% by weight) and active material (0.001-70% by weight). The claimed weight limitations are important because the synergistic combination of binder, salivating agent, diluent/bulking agent and active agents in the amounts claimed provides rapid-melt and semi solid compositions that rapidly melts in the mouth. The formulation of the prior art are chewable solid compositions and differs from the semi-solid compositions of the invention. Therefore, the pending claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
